## STEcoMed2024

# 1<sup>st</sup> International Congress for Sustainable Ecosystems in the Mediterranean Area

October 2. - 3. 2024. in Split, Croatia

---

The goal of the Conference is to gather eminent experts from the academic community and industry and discuss challenges, state of the art knowledge and opportunities related to sustainability of blue (marine), green (terrestrial) and yellow (tourism) systems in the Mediterranean area.

### Congress theme sections:

1. Agro-food sector
2. Fisheries, aquaculture and marine pollution
3. Climate change
4. Biodiversity
5. Tourism
6. Digitalization in agronomy and food production
7. Environmental protection, waste management and environmental engineering

---

The Conference will include plenary and invited lectures, oral, short oral and poster presentations.

*We are looking forward to welcoming you in Split!*

Maja Krželj – President of the Congress and Organizing Committee Chair
